NEW YORK, July 6.—In the hope of capturing Leon Ling, murderer of Elsie Sigel, the police have just cabled to several cities on the Mediterranean coast and to points through the Suez Canal and Indian Ocean to hold up the German steamship Helene Rickmers and search it for the fugitive.

Information is almost conclusive, the police say that Ling shipped from Philadelphia between June 10 and 12. The murder was committed on June 2. Detectives found that the Helene Rickmers left Philadelphia on June 12, bound for Itosaki, Japan, and that before salling her commander, Captain Octing, shipped several Chinamen as part of the crew. Among these Chinamen, who were engaged only a short lime before salling, was one well-dressed man, who spoke good English, and who professed to be an expert cook. Leon Ling were good clothes, spoke English fluently and was a mastir cook.

#### MRS. BROWN SEEKS DIVORCE MAJORITY RULE

Charges Cruelty Against Ex-Governor's Son.

BALTIMORE, MD., July 8.—Frank Snowden Ridgely Brown, son of ex-Governor Frank Brown, was to-day sued for divorce by Mabel Jane Michael Brown, the pretty young woman to whom he was married not quite three years ago.

It is a sensational story that young Mrs. Brown tells in her bill for a decree of absolute separation, filed in the Circuit Court through Attorney William Colton. She declares that she bore with her husband as long as she possibly could, and that she was literally driven from her apartments and forced, for safety, to escape to the apartments of friends. At the same time, and through the same attorney, Mrs. Brown brought suit in the city court against ex-Governor Frank Brown, charging him with alienation of affections, and demanding \$100,000 damages.

Mrs. Brown decided finally this morning to begin action against her husband and her father-in-law. Her decision followed, according to the bill, a scene which she had with young Frank Friday at their apartments on North Charles Street. She alleges that he came into the apartments with his buildog, a victous animal, and threatened to set the brute on her. She stated that some of her friends were present, and she was therefore humiliated before their eyes.

The bill states that Mrs. Brown remonstrated with him because of his many cruelties, and he informed her that he had only just begun, and that if she stayed she would soon learn that he was telling her facts.

So, the bill alleges, the young wife made a hasty exit from the apartments and sought refuge with friends, whose names she chooses to withhold.

The tariff bill was then reported from the Committee of the Whole to the Senate.

The tobacco tax as introduced from the committee to-day retained the existing rate of \$3 per 1.000 on cigars, weighing more than three pounds per 1.000, but added a proviso increasing the tax on high-grade cigars. This provise fixed a tax of \$6 per 1.000 when the wholesale price is between \$75 and \$110. Where the price was more than \$110 the tax was fixed at \$9 per 1.000. On cigars weighing three pounds or less per 1.000 the House rate of \$1 was reduced to 75 cents per 1.000. As to cigarettes weighing more than three pounds per 1.000 the House rate of \$3.60 was retained, but on those weighing not more than three pounds for any form of premium slips in packages of tobacco is prolibited by a new section of the bill. This section is considered to be broad enough to prohibit all forms of trade stimulants through the promise of girts, and will apply to retail sales of cigars from boxes as well as to the placing of certificates in packages. The laws governing the sizes of packages of cigars are re-enacted. Additional sizes of packages of sincking tobacco are permitted by the Senate amendment. It is provided that the new taxes shall not take effect until July 1, 1910.

Other Amendments.

Among amendments agreed to today was one which exempts labor organizations, fraternal beneficiary societies and organizations exclusively for charitable and educational purposes from the operations of the act.

RANGE, VA., July 6.—Afer a day of many hardships, one of the good roads scout cars of The Times-Dispatch-Washington Post reached Orange to-night at 9 o'clock, to be received royally by the citizens or a county which is doing more for good roads than any other in the State, and which has already about fifteen miles of model hishway. The other car broka down about Brandy Station, twenty-five miles away, and is expected to reach Orange eary in the morning. Traveling through Virginia red clay after recent rains is not the easiest method of locomotion even in powerful motor cars. The red mud seems to possess a thousand arms, all streached out to hold the pilgrim back, and so the journey from the national capital to the county seat of Orange, about eighty-six miles, was somewhat halting and punctuated with many unwilling stops.

At Alexandria, Fairfax, Manassas and Culpaper, great crowds were out to welcome the pathfinders for a highway between Washington and Richmond, while at the smaler towns, at the crossroads, and even along the roadway, groups of men and women turned out to say "God speed" to the plan.

At Manassas the Mayor and a large party of persons turned out to welcome the pathfinders and speed them on their way to Culpeper, where a horse show was in progress, and the crowd was enormous. The pleasantest part of the day's running was over the splendid roads leading into Orange.

Mr. Walker, of Woodberry Forest, met the scouts about four miles out of Orange and piloted them into the town, where a crowd numbering not less than 300 people had gathered to greet them.

"As I sat here listening to the in-teresting remarks of the ambassador from France and the ambassador from England," he said, "I could not, but congratulate the United States on the duplied compliment that those two countries had paid to her by sanding here, as the personal representatives of their respective chief executives, men so distinguished in literature, in history, in statesmanship and in di-

The enraged Madure, on seeing his flag shot down, ran to the Police Court and swore out a warrant for Conant, and the latter was taken before Judga Wilcox. Conant said that the action of the Italian in hoisting the Italian flag on the Fourth of July was treason, when the latter refused to run up the Stars and Stripes above it, and he decided that no flag should float there.

Judge Wilcox surprised every one in the courtroom by fining Conant \$25.
